

# AtlantiCare Campus Sexual assault / Title IX– resources and referral options

## Medical assistance

Student Health Services can provide health services and referrals. Students can go to AtlantiCare for medical services. A police report is **not** required to receive medical assistance. A Sexual Assault Exam is available at AtlantiCare. The exam includes preventive treatment for sexually transmitted infections, pregnancy and evidence collection. A Sexual Assault Nurse Examiner (SANE) or forensic examiner who has received specialized training performs the exams.

### AtlantiCare

1-888-569-1000

### Student Health Services

570-558-4290

## Safety & security

Public Safety can provide help ranging from immediate referral information to personal support, as well as assist with information regarding an investigation. Reporting to Public Safety will also protect the community from future victimizations and help apprehend the assailant. The Public Safety Department is required to contact the local police any time a crime has been reported. This does not mean that the reporting individual must proceed with criminal charges.

### Emergency services off campus

911

### Atlantic City Police

609-347-5780

### GCSOM main campus Public Safety

570-558-2300

## Advocacy & support services

Resource advisors are available for immediate support, information and referral services and can walk you through the Policy on Sexual/Gender Discrimination, Misconduct and Harassment to help you understand your rights and options for reporting. They can provide ongoing support through the reporting and investigation processes, if so chosen. Resource advisors will report the nature, date, time and general location of an incident to the Title IX coordinator, but they are not required to report name if that is your choice.
